

# North East & Yorkshire Regional Faculty for Advancing Practice Briefing - April 2021

## Supervision & Assessment

The provision and delivery of high-quality workplace supervision for practitioners developing in advanced clinical practice is crucial for both professional and patient safety ([Workplace Supervision for Advanced Clinical Practice, The Centre for Advancing Practice](#)). The regional faculty is working towards developing a best practice guidance in quality and governance in collaboration with the regional quality team.

### Our objectives

- Develop a regional best practice guidance, quality assurance frameworks and standards to improve consistency.
- Provide a set of standards and supporting guidance for employers and practitioners to ensure continuous quality improvement.
- Establish the requirements of multi-professional advanced practitioner supervision.
- Establish the training and development of supervisors.
- Improve consistency and limit supervision practice variation across the health and care sector in the region.
- Ensure supervision with a focus on professional and public safety in advanced clinical practice.

### Work in progress

- \* Trainee and qualified ACP survey
- \* Supervisor training sessions
- \* Developing a multi-professional ACP supervisor faculty
- \* Recognise and Accredite ACP supervisors
- \* E-Portfolio
- \* CASP - (Clinical Academic Supporting Panel)- formal review of the capability and portfolio.

## Surveys

We have designed a trainee & qualified ACP survey as part of our quality assurance and supervision work to capture data on their current supervision experiences. The links to the surveys are below. Please can we ask that you circulate these to trainee and qualified ACPs, employers and ACP leads in your area with a footnote that they can forward the survey on to any other ACPs they may know. The survey will be open for 3 weeks, closing on the 27<sup>th</sup> April 2021.
